Subject: Francis Marie and I want to THANK YOU

I can never thank Harriet and her team for the gift of Frannie. She is such a joy and is coming more out of her shell daily.

Valentine's Day which has never held much meaning to me now does -- that was the weekend that I met Francis Marie. A beautiful little ball of blond fluff. We don't know what Frannie has been through before she got to you, not sure of her age (8-10); bad hips; bad eye. But this little dog has given me so much joy!! My neighbors all adore her and are marveling at her progress. We are out walking daily, she loves sitting out back on the beach with the wind in face, folks stopping by to say hello.

Thank you all for saving Francis Marie for me -- this delightful dog has given me new life. She travels with me, has met all the far flung family and friends and their pets and all who meet her love her.

I want to encourage anyone thinking of adopting a pet, please consider an older animal. They can be an easy addition to your household -- not destructive, house trained, socialized and so grateful to have a home. Francis moves at my pace, was easy to adapt to my lifestyle and gets along great with my older cat.

Thank you doesn't say enough. I will be sending some pictures in a few weeks of us on vacation.

PLEASE KEEP UP THE GREAT WORK you are doing for all of these precious animals.

Kate Folmar
